## THE STATE OF NEW HAMPSHIRE

---

*To the Inhabitants of the Town of Warner in the  
County of Merrimack in said State, qualified to  
vote in Town Affairs:*

(L. S.)

You are hereby notified to meet at the Town Hall in said Warner on Tuesday, the twelfth day of March, next at nine o'clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the ensuing year.

2. To raise such sums of money as may be necessary to defray Town charges for the ensuing year and make appropriations for the same.

3. To see if the Town will vote to raise and appropriate the sum of \$100.00 for the purpose of publicizing the natural advantages of the Town, in connection with the other Towns in the Dartmouth-Lake Sunapee Region.

4. To see if the Town will vote to raise and appropriate the sum of \$400.00 for the control of White Pine Blister Rust in the Town, in cooperation with the State Forestry Department.

5. To see if the Town will vote to rescind the motions passed at the 1933 March meeting in regards to the electing of a Road Agent.

6. To see if the Town will vote to authorize the Board of Selectmen to appoint a Road Agent.

7. To see if the Town will vote to authorize the Street Light Committee as appointed in the March, 1945, Town meeting to relocate certain street lights in Town with the approval of the Selectmen and appropriate money for the same.

8. To see if the Town will vote to authorize the Selectmen and Town Treasurer to borrow money on notes of the Town in anticipation of taxes.

9. To hear reports of Officers of the Town heretofore chosen, and pass any vote relating thereto.

10. To tranact any other business that may legally come before said meeting.

Given under our hands and seal, this 25th day of February in the year of our Lord nineteen hundred and forty-six.

The table of statistics shows only slight variations from the previous year. The number of pupils registered has increased, and probably will continue to rise in succeeding years until the usual number is reached. 157 reside in the district.

At the regular district meeting in March a committee was appointed to work with the school board and superintendent in investigating the need for a special opportunity class for pupils in the elementary school. The joint committee, after consideration of the problems presented, employed Dr. Albert I. Rabin to give psychological tests to all the pupils of the elementary school. The results of the tests indicated a need of special work for a group of fourteen pupils. The committee reported these results at a special district meeting held at the town hall July 20, 1945 by authority obtained from the Superior Court. By vote of the meeting the sum of \$3,000 was raised and appropriated for the purpose of establishing such a class as was needed.

On account of the scarcity of teachers it was impossible to find one for this special group before school opened but a teacher was found about the middle of September. The small room at the graded school has been used for this class. As soon as materials and labor are available for the purpose a room in the Masonic building will be prepared for the use of Grades 7-8, thus releasing a regular room at the Graded School for this special group. At this writing a good start has been made.

At this point it may be well to summarize the building needs of the district.

1. Room for Junior High School, Grades 7-8.
2. Room for High School Agricultural Shop.
3. Room for Cannery.
4. House where teachers may live.
5. Adequate building for elementary grades.

For many years in the past, Warner has enjoyed a cultural and educational leadership among surrounding towns. This was in part due to the early establishment of a high school. Within the past few years modern and well equipped high school buildings have been erected in nearby towns and others are likely to be built within a few years. On account of its location

Warner

on the railroad which furnishes cheap and easy means of transportation, this district has many high school tuition pupils from towns up the line. However, when normal conditions return there will be nothing to prevent pupils from attending any nearby school simply by driving their own automobiles. To retain its educational prestige this district must offer advantages equal to or surpassing that of its neighbors.

One step in this direction would be the erection of a suitable building for housing an Agricultural Shop and classroom, a lunch room and kitchen for the high school, also containing facilities for the Junior High School Cannery and Graded School needs, in short meeting all our anticipated needs. At present we are resorting to the makeshift arrangement of renting inadequate and unsatisfactory quarters for shop, Junior High and Cannery. After a few years in this situation, we shall have nothing but a few thousand dollars worth of rent receipts and the same cramped and unsatisfactory conditions. In addition to this we must face the fact that the Graded School building is becoming obsolescent. It does not meet modern conditions. There is no lunch room or adequate place for preparing food; there is no suitable room for teachers; the heating system must be entirely overhauled; the toilets are in poor condition and the play ground is merely a hollow between two hills.

Instead of spending a few thousand dollars here and there for mere stop gap purposes, would it not be wiser for the district to meet all its anticipated needs by erecting a modern building to house a consolidated school? This might be done by remodeling the present high school building and making it one wing on a building large enough to meet needs of High and Graded schols. The policy of putting school money here and there to pay for unsatisfactory and poor makeshift accommodations is uneconomical and should be abandoned. It is only by some such plan as this that the district will be able to meet the educational needs of its pupils and maintain its leadership.

Another problem which we must solve lies in obtaining better living conditions for teachers. During the past year we lost two men teachers with families because no satisfactory rent was obtainable. We have

been unable to employ other teachers for the same reason. Places for teachers to board and room are found only with the greatest difficulty. It is impossible for a teacher to do her best work in school while worrying about how and where she is going to live.

In some nearby towns teachers are able to obtain apartments where three or four of congenial temperaments may live and board themselves. We have been unable to find such accommodations here. Steps should be taken by the district to provide living quarters for its teachers. This should include apartments for single teachers and rents for teachers with families. If a new school building such as we have suggested should be erected, the present Graded School could be remodeled into apartments where single teachers could board themselves and one section made into a satisfactory home for a family. If this is not done, it would be greatly to the advantage of the district to purchase a house for the purpose.

All our building suggestions as made above will cost a fairly large sum of money. However, Federal Aid may become available. It is impossible to make omelettes without breaking a few eggs. The district now stands at a crossroads and the direction chosen will decide its destiny for many years. It would be better to take some decided constructive action than to let affairs drift.

# REPORT OF SCHOOL HEALTH DEPARTMENT WARNER GRADED SCHOOL

1944-1945

The following report of school examination is made by the School Health Department:

Number pupils examined	111
Number defective vision	8
Number defective teeth	38
Number enlarged tonsils	9
Number enlarged glands	3

## Corrections

Vision	9
Teeth	11
Tonsils	2

## Special work:

Audiometer (hearing test) used at graded school—  
98 examined.

For a number of years the need for a Special class has been recognized in Warner. To determine this fact, Dr. Albert I. Rabin, Chief Psychologist at the New Hampshire State Hospital, came to Warner and gave a screen test to every pupil in the Graded School. Those found to need help were then given a special examination as an individual. From this it was found that Warner had more than its share of retardation. Because of Community Cooperation we now have a teacher and will soon have a room for the pupils to work in. Next year a report will be given to you as to the progress made in this class.

Respectfully submitted,

DR. EDWARD PUTNAM,  
RUTH B. WHITCOMB, R. N.

## FOREST FIRE WARDEN'S REPORT

---

An average of 7,300 acres of woodland are burned over by forest fires in New Hampshire each year destroying many thousand dollars worth of property of all description. It costs many additional thousands of dollars and requires valuable man hours, taken from other essential work, to extinguish them. These losses affect the personal fortunes of the owners and town and state economies. Everyone loses because of them.

Analysis of fire causes reveal the fact that more than 98 percent of all forest fires are, consistently, the result of human carelessness and are preventable!

We have been extremely fortunate during the past few years. Favorable fire weather and war time restrictions on travel which kept people off the highways and out of the woods have aided materially in reducing fire risks, keeping fires fewer and fire losses low.

We now face changed conditions. People can travel freely. Their love for travel and the freedom of the woods will bring them out in ever increasing numbers. This will step up fire risks materially. The accelerated cutting of the war years has resulted in additional thousands of slash acres. These factors, combined with a possible dry season and human carelessness could easily produce a catastrophe. Everyone must, consequently, be on their guard. They should:

1. Be careful with fire or when smoking in or near woodlands.
2. Cooperate with the local forest fire warden and his deputies by:
  - a. Abiding cheerfully with whatever restrictions it may be necessary to impose. They are intended only to be helpful.
  - b. Securing permits to burn debris when the ground is not covered with snow.
  - c. Seeing that others comply with requirements.
  - d. Promptly coming to the warden's assistance when needed.

If these few fundamental practices are followed it will be possible to PREVENT a large proportion of FOREST FIRES from starting—that PAYS!
